

PRESENTED TO

Vijaykanth Reddy Basireddy C

---

“Want to take a moment to acknowledge and appreciate Vijay's exceptional efforts in the recent rollout of the V2 API to .NET Core on Linux. His dedication to collaborating with both DevOps and SRE teams and resolution of post rollout issues was instrumental in ensuring a successful migration. Vijay's ability to juggle multiple responsibilities while maintaining a high standard of work is truly commendable. He has the ability to learn new things and implement quickly which was evident in his work for V2 API usage dashboard where he learnt, used Apache e-charts to deliver the feature on time and with quality..”
